

# Ahoy There!

Did you know the *SS Great Britain* flies over 180 flags?

Most are international maritime signal flags used, to this day, by ships to communicate with each other. Every flag stands for a letter of the alphabet and a specific message. Crews used to hoist the flags in different combinations to spell out short messages.

Get creative and make your own signal flags to fly in your window.

You could spell out your name or design a brand new flag. What could its meaning be?

<b>Flags</b>					
					
<b>A</b> Diver down	<b>B</b> Dangerous cargo	<b>C</b> Yes	<b>D</b> Keep clear	<b>E</b> Turning to starboard (right)	<b>F</b> Disabled; communicate with me
					
<b>G</b> Require a pilot	<b>H</b> Pilot on board	<b>I</b> Turning to port (left)	<b>J</b> On fire, keep clear	<b>K</b> Wish to communicate	<b>L</b> Ship in quarantine
					
<b>M</b> Vessel is stopped	<b>N</b> No	<b>O</b> Man overboard	<b>P</b> About to sail	<b>Q</b> Vessel is healthy	<b>R</b> <i>No meaning</i>
					
<b>S</b> Engine going astern	<b>T</b> Keep clear	<b>U</b> You are running into danger	<b>V</b> Require assistance	<b>W</b> Require medical assistance	<b>X</b> Stop your intentions
					
<b>Y</b> Dragging anchor	<b>Z</b> Require a tugboat
