How to Make a Foil Christmas Tree Ornament

You will need:
Embossing foil or tin foil
A pencil
Ribbon
Hole punch
Festive cookie cutters (optional)
Your favourite Christmas cards (optional)

Method

1. Cut a piece of foil into the shape and size you want your decoration to be. Then lay it flat in front of you on your work surface.

2. Take a pencil and draw any festive image you want to on the foil. Make sure the pencil is not too sharp so that it doesn't rip the foil.

3. Take it further by using a festive cookie cutter to press a shape onto the foil. Or place a favourite Christmas picture (thin card or paper) over the foil shape and draw over a particular feature to impress this onto the decoration.

4. Carefully punch a hole at the top of the foil piece, make sure it is not too close to the edge. Ask a grown up for help with this if you need it.

5. Thread some ribbon through the hole and tie in a knot, it's now ready to hang on your tree.
