

## **The Captain's Trail Key Stage 1**

### **Group 5: Adult Guide**

Please read through this guide before your visit. It will help you prepare for leading your group around the ship.

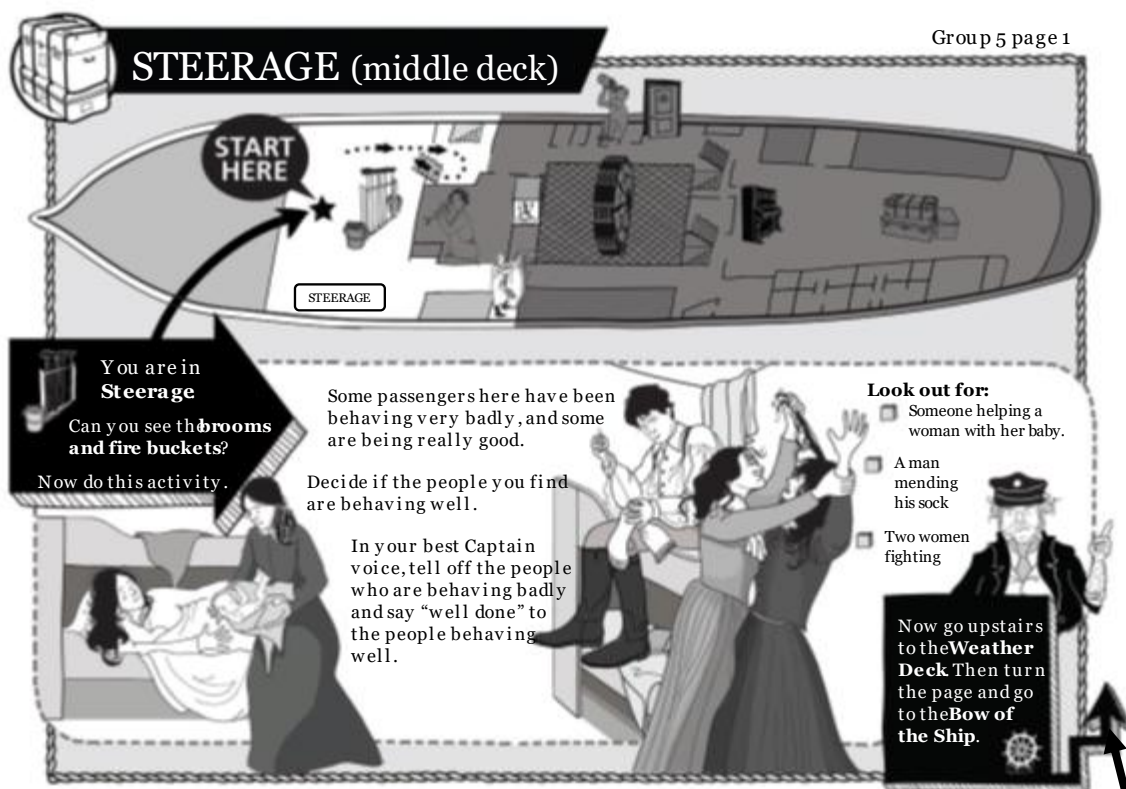

On The Captain's Trail your group takes on the role of the "Captain" inspecting the SS Great Britain during a voyage to Australia.

- Each group has their own starting point on the ship.
- Find your starting point and do the activity there.
- Then use the map to help you find the next activity point.
- As you follow the dotted line on the map there are things for your group to spot as you go along. This also helps you to make sure you are going the right way!
- The children do not need a trail each but make sure they all see one and can get involved in the activities.
- There are facts and questions below for each stopping point to help engage your group. You do not have to use all of these. They are just some ideas to get you going.

## Middle Deck: Steerage

Do these activities with your group on their sheets.

### Children's Trail

### Adult Notes

- This was the cheapest accommodation on board, but it was still expensive.
- Steerage passengers ate food from their own kitchen including ships' biscuits. They sometimes had insects called weevils in them, so passengers always had to check before they ate them!
- Do you think you would have liked to travel in Steerage?
- Where do you think Steerage Passengers would have had a wash?
  - They had to wash in a barrel of sea water on deck or may not have washed at all for 60 days!

Then use the map to find the next place.

## Weather Deck: Ship's Bow

### Children's Trail

### Adult Notes

- This is the front of the ship.
- The bell was used to let the crew know what time it was.
- What do you think could happen if you set sail in very stormy weather?
  - Danger of shipwreck or people being washed overboard
- What would happen if you set sail when there wasn't any wind?
  - The ship wouldn't be able to use the sails to move.
- The SS Great Britain had an engine and sails to make it move. Why do you think it had both?
  - To be able to move when there was no wind

## Weather Deck: Ship's Stern

### Children's Trail

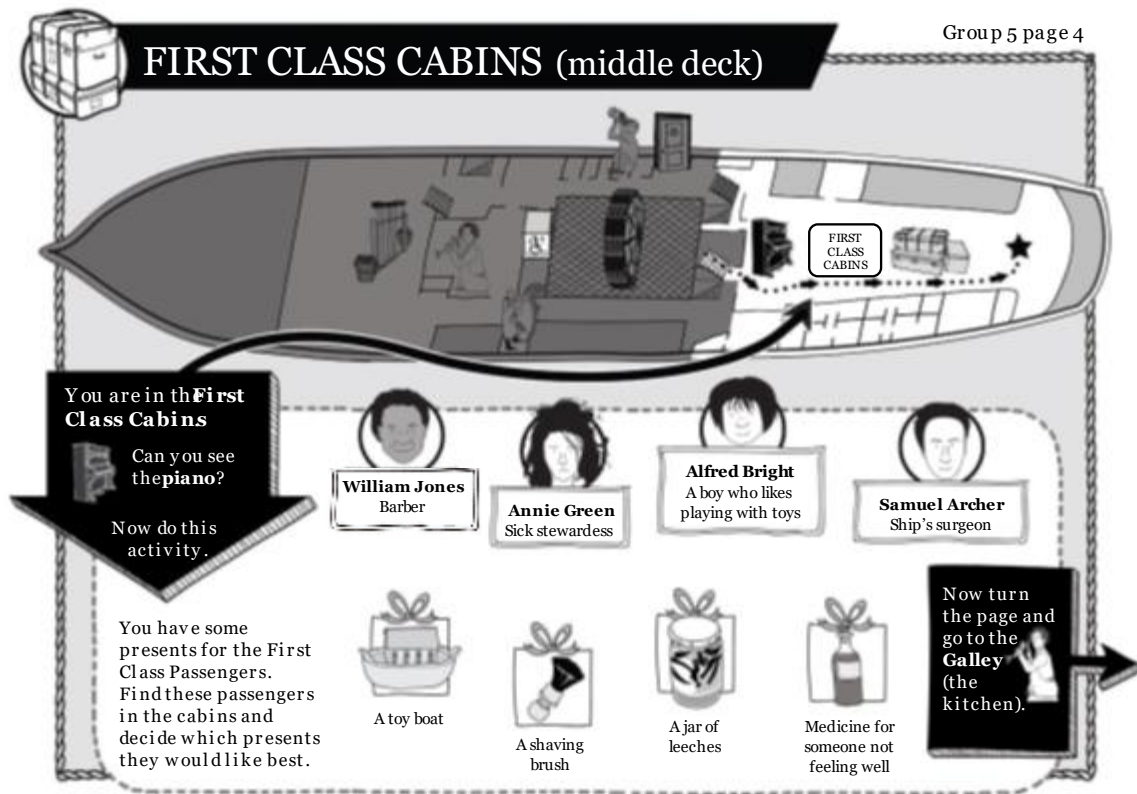

### Adult Notes

- This is the back of the ship.
- Two people were needed to turn the wheel.
- You had to face the bow (front) of the ship while steering.
- Because the SS Great Britain is so long you can't see what's happening at the bow if you are steering. Somebody would have to shout orders from the flying bridge (in the middle of the deck).
- Why do you need two people to steer the ship?
  - Because it would need a lot of strength to turn the wheel.
- What sort of things do you think the sailors would be looking out for at sea?
  - Other ships, icebergs, whales, and land

## Middle Deck: First Class Cabins

### Children's Trail

### Adult Notes

- Only First Class passengers were allowed in here.
- The First Class passengers would have stewards and stewardesses to do things for them such as bringing them drinks and emptying their chamber pots!
- Do you think you would have liked to travel in the First Class Cabins?
- Why do you think the bunks are so small?
  - So that you wouldn't roll around in bed when the ship was rolling and because there wasn't much space on the ship.
- Why do you think the stewardess is feeling sick?
  - She is seasick.

## Middle Deck: Galley

### Children's Trail

### Adult Notes

- Food was cooked here for all the passengers and crew
- First Class Passengers had four meals a day
- Can you spot the rats? They were particularly a problem in the galley where they would eat the food supplies!
- Where do you think they would get milk, eggs, fresh meat, and fish from on long journeys to Australia? (About 60 days)
  - From cows, chickens and pigs carried on board. Fish could be caught on stops along the way.
- Would you have liked to eat the food cooked in this galley?

**Congratulations, you have finished your trail!**

If you have time, visit the Dining Saloon and Crimean War horses on the lower deck.
